Portfolio: <https://lekhasreec.github.io/-lekhasreec.github.io/>

CAREER OBJECTIVE

MCA graduate with a strong foundation in Python, C, and C++, along with practical exposure to databases and business tools such as Power BI. Seeking a Software Developer role to apply strong problem-solving and programming skills, build efficient and reliable software solutions, and grow within a collaborative technical team.

KEY STRENGTHS

- Strong problem-solving and analytical skills, developed through academic projects and structured coursework.
- Hands-on experience with Python, C, C++ and SQL through coursework, certifications, and independent projects.
- Comfortable researching and picking up new tools, languages, and concepts independently.
- Experience presenting technical work, including a paper presented at a national conference (NCAAIT'26).
- Adaptable team player, comfortable working both independently and in a collaborative technical team.

EDUCATION

MCA — Priyadarshini Engineering College 2024 – 2026 | 8.85 CGPA

B.Sc. CS — Abiraami Arts and Science College for Women 2021 – 2024 | 8.02 CGPA

HSC (12th) — Thiruvalluvar Hr. Sec. School 2020 – 2021 | 90%

SSLC (10th) — Thiruvalluvar Hr. Sec. School 2018 – 2019 | 87%

TECHNICAL SKILLS

Programming Languages: Python, C, C++

Databases & Tools: SQL, MS Office, Power BI (basic), Git / GitHub

Core Concepts: Object-Oriented Programming, Problem Solving, Data Structures fundamentals

Soft Skills: Teamwork, Adaptability, Time Management, Written Communication

PROJECTS

Academic Project Approval Workflow

- Designed and developed a system to streamline submission, review, and approval of academic/final-year projects.
- Enabled students to submit project proposals online, and faculty to review, approve, or request changes digitally.
- Presented as a research paper at NCAAIT'26 — National Conference on Automation using AI Technology (March 2026).

GitHub: github.com/lekhasreec/academic-project-approval-workflow

Student Attendance & Marks Management System

- Built a console-based Python application backed by SQLite to manage student records, daily attendance, and subject-wise marks.
- Designed a relational schema (students, attendance, marks) with foreign key relationships and CRUD operations.
- Implemented attendance percentage and marks reports generated directly from SQL queries.

CERTIFICATIONS

- Advanced Diploma in Python Programming
- Diploma in Computer Application (Basic Computer, MS Office, HTML, OOP, C, C++, Java)
- SQL, C, C++, SQL Intermediate — Sololearn
- Firewalls — Great Learning

WORKSHOPS & SEMINARS

- National Level Seminar on Classical Cryptography — KMG College; Participated in a Web Designing Competition
- Presented paper "Academic Project Approval Workflow" at NCAAIT'26, Er. Perumal Manimekalai College of Engineering, Hosur

ADDITIONAL INFORMATION

- Languages Known: Tamil, English, Telugu (Speak)
- Hobbies: Creative Writing, Sketching, Practice Coding
